Hi Everyone – I hope you all had a good weekend! A few things on OR CZARA Pesticides:

1. Latest XL spreadsheet attached above with comment categories from Leigh, Alan and me, which you can use if you haven't already started. Erik and Dirk, if you're able to get me the comment categories for your areas by Thursday AM, July 3, I'll have compiled comments for the group to RW by July 8. The group would then review these compiled comments and possibly work on preliminary responses. We would try to meet then on July 28 (so no mtg on July 7 or 8 as I previously thought).
2. FYI - My talking points for tomorrow's CZARA call attached above. Optional for you to RW, and welcome your comments if you do.
3. FYI - Reference List attached above and sent to Tetrattech. They had a preliminary list of references and are almost done.
4. FYI - Another article just came out on EPA and NOAA's overall OR CZARA action today.
